SUMMER SOJOURNS

Where to stay in Australia, San Diego, Seattle, and Croatia

When Dennison Royal began developing the Ocean Palms section of **Kiawah**, he looked up two architects. For inspiration, he turned to Addison Mizner's work in South Florida. For design, he enlisted Christopher Rose, an award-winning Charleston, SC, architect. On lot nine of Ocean Palms Court, Rose channeled Mizner's Mediterranean style to design a five-bedroom, five-bath home for a site that's 1.8 acres, including 125 feet of beachfront. Its exterior is layered with three coats of stucco, and its roof is clad in S-shaped clay tiles. Inside are a ground-floor gourmet kitchen and guest suite; the master suite sits atop it all, on the third floor. **\$12,225,000, Kiawah Island Real Estate, 888-559-9024, kiawahisland.com/real-estate**
